

Date: 15/11/25

Not In Attendance: oj54

What's Been Done since the Previous Meeting:

<sw734>:

- . Controller & model added so the user can now log in
- . Added the bottom footer that was only on the home page into generic layout
- . Added controller function so user can log out
- . Made alerts for successful sign out among other alerts

<lj330>:

- . Begun planning how & what dynamic addition to add to home page

<mz300>:

- . Added a working timer to the reservation page
- . Minor changes to the reservation form fields

<oj54>:

<oh219>:

- . Created the bottom footer
- . Created privacy policy page

What's Being Done:

<sw734>:

- . Adding some dynamic content onto the home page

<lj330>:

- . Adding some dynamic content for the home page

<mz300>:

- . Deciding if to move onto another feature or refine reservations more

<oj54>:

- . Creating the menu page / researching it

<oh219>:

- . Thinking about the next feature to implement

Further Discussion:

- . The fading messages sw734 made are good but there has to be something better to use (look outdated)
- . Find something better than the session storage alerts or add better styling
- . Discussed ways to make the home page less static, going to try & implement it for next meeting
