<sw734>:

- . Working on the proposal document
- . Working on the database script

<lj330>:

- . Continued work on the html & css file

<mz300>:

- . Working on the proposal document
- . Work on the db script & database design document

<oj54>:

<oh219>:

Further Discussion:

- . This was our first group meeting, we are still getting used to the frameworks & how they interact with each other
- . We now understand how the frontend works but now we are discussing ways on how to get the backend working
